

## Committed to accessibility

Concourse is the pioneer in syllabus management and accessibility. Since 2007, we have helped schools transition from Word and PDF documents to consistent and accessible online syllabi that are fully navigable and understandable. With support for multiple accessibility standards, detailed in our VPAT, institutions using Concourse can be confident knowing everyone can equally benefit from syllabus content.

**WCAG 2.1 AA** | **Revised Section 508** | **EN 301 549**

## Selected accessibility features

- 1 **Skip Link**  
A link is provided to efficiently “skip” over navigation and other elements that are repeated across pages.
- 2 **Contrast**  
All text, images of text, and iconography have contrast ratios of at least 4.5:1.
- 3 **Headings**  
Hierarchical, logical, and descriptive section headings are used throughout to convey structure and meaning.
- 4 **ARIA**  
Accessible Rich Internet Applications (ARIA) attributes are used to describe the identity, role, operation, and state of interface elements.
- 5 **Non-text Content**  
Alternate or contextual text is available for all non-text elements.
- 6 **Tables**  
Tables are captioned and used only for tabular data. Cells are associated with headers to ensure proper reading order and understanding.
